Jun 4, 2019 Windows Live Mail contacts has gone. What can I do? import Microsoft And so you have lost your contacts.Windows 8.0 Windows Live Mail and Windows Phone 800 contact syncing when disconnected, add Windows Phone to the Windows account in computer. 3. Open Windows Live Mail. In the lower-left corner, select the contacts you want to delete. Open Windows Live Mail if you can't use the Contacts you want to delete. 4. Select "Other" on the right. This will open the Windows Live Mail options. Go to the Tools menu (by default) on the Windows Live Mail. In the "Preferences" section, open the "Options" tab. Click the "More..." link. Go to the Other section. This will open the Windows Live Mail options. Click the "Contacts" option. Look for the "Stop syncing" option. Make sure this is unchecked. That is all. If you can use Windows Live Mail, go to the "Windows Live Mail" section and select "Contacts". If you still can't use Windows Live Mail, then you'll have to make a new Live Mail account. Or, you can try to retrieve your contacts by clicking . If you are new to Windows Live Mail, then you can refer to . If you can't remove Windows Live Mail from your PC. Go to the Troubleshoot tab. Go to the Windows Startup tab. Revert to your last good boot option. Delete all except for one boot option. Go to Control Panel. Go to "Region and Language". In the Region and Language dialog, click the "Change system locale..." button. Select a language or country other than your native language. Now, press the "Restart Now" button. Now that we have got your Windows Live Mail back to where it used to be. You can import your contacts from any of the social networks. I used to use Facebook before Windows Live Mail. References Create a Microsoft Account to recover Windows Live Mail Recover lost contact in Windows Live Mail or get the contact's information in Windows Live Mail or Windows Live Recover Windows Live Mail contacts from your Windows Live Mail on Windows 8.1 Retrieve your Windows Live Mail contacts to your computer How to recover your f678ea9f9e
